

UM-H2O-RC

Roll Water Base Coating Machine

The UM-H2O-RC Roll Water Base Coating Machine applies adhesives evenly across the surface of the component layer (foams, latex, Syfi/Fiber, Foam core units etc.) before the layers are used to build the mattresses. Adhesive amount can be adjusted as needed.

SPECIFICATIONS	UM-H2O-RC
Production capacity	approx. 5 sec/layer
Max mattress size	86.5"x86.5" (2200mmx2200mm)
Max layer height	8" (203mm)
Conveyor speed	up to 40m/min
Voltage	220/380

Our roll coating machines adjust to width and height of foam panels while applying water-based adhesive.

- Production capacity – approximately 5 seconds per layer
- Programmable glue application amount
- User-friendly software system and control panel
- Integrated into your mattress manufacturing process plant layout.

Sourcing Unlimited's two companies, United Mattress Machinery and Jumpsource, are industry leaders in producing the highest quality of machinery and aftermarket parts.
