

UM-PRESS-4

Adhesive Press Machine

The United UM-PRESS-4 mattress press provides 4 tons of even pressure for bonding of layers together.

SPECIFICATIONS	UM-PRESS-4
Production capacity	approx. 15 sec/mattress
Max mattress size	86.5"x86.5" (2200mmx2200mm)
Max mattress height	20" (500mm)
Conveyor speed	up to 40m/min
Pressure	4 tons
Voltage	220/380

The UM-PRESS-4 Press Machine functions as a tunnel and semi-compresses and applies pressure evenly across the mattress to ensure the adhesive (hotmelt or water base) bonds appropriately on all layers of mattress. . . regardless of the mattress construction type.

- Production capacity – approximately 15 seconds per mattress. This process time can be reduced and/or increased depending on the number of cycles needed
- Programmable pressure cycles
- User-friendly software system and control panel
Integrated into your mattress manufacturing process plant layout

Sourcing Unlimited's two companies, United Mattress Machinery and Jumpsource, are industry leaders in producing the highest quality of machinery and aftermarket parts.
